Synergy Choice from Aspida Life Insurance Company is a multi-year guaranteed annuity (MYGA). It offers a simple, steady, guaranteed way to build retirement savings and the ability for clients to choose a withdrawal feature that best fits their needs.

MYGAs are backed by the claims-paying ability of the issuing insurance company.

Contributions grow tax-deferred until a selected future date (usually retirement).

An optional Withdrawal Feature is available to enhance your contract.¹

Options to convert MYGAs into a lifetime income stream can help you meet goals.

Guaranteed Lifetime Income Benefit Rider Features

Minimum Activation Age	50
Benefit Base	The initial Benefit Base is equal to the Initial Premium plus the Benefit Base Bonus. On each Contract Anniversary, an interest credit will be calculated based on the Initial Premium, minus Withdrawals, multiplied by an annual simple interest roll-up rate of 12%³. Withdrawals will reduce the Benefit Base and the annual simple interest credits. The Benefit Base cannot be withdrawn in a lump sum. The Benefit Base is used to determine rider benefits only. It does not have a cash value or a surrender value.
Benefit Base Bonus	A 32% bonus , calculated based on the Initial Premium, provides an initial boost to the Benefit Base.

Pre-Activation Rider Charge Rate: 0.50% Post-Activation Rider Charge Rate: 1.50%

Annual Rider Charge⁴

The Rider Charge is deducted on the Contract Effective Date, then annually on each Contract Anniversary from your annuity's Contract Value. The Rider Charge is calculated as a percentage of the Benefit Base only.

Enhanced Nursing Home Multiplier

To qualify for the Enhanced Nursing Home Multiplier, after a 36 month waiting period from the Contract Effective Date, the persons for whom lifetime income withdrawals are based must be confined to an Eligible Nursing Home for at least 90 consecutive days.

If qualifications are met, the lifetime income withdrawal amount will be multiplied by 200% for Single Life Withdrawals and 150% for Joint Life Withdrawals. The Maximum Enhancement Period is 60 months as long as the eligibility requirements are met and the Contract Value is greater than zero.

Payout Factors for Single & Joint Life Withdrawals

The income amount you receive is calculated using your Benefit Base amount and multiplying it by the applicable Lifetime Withdrawal Percentage found in the chart below. Percentages are based upon the Attained Age of the younger life at the time you elect to receive a lifetime income withdrawal. At activation if the Contract Value is higher than the Benefit Base there will be a one time increase to the Benefit Base to match the Contract Value.

Once you decide to start lifetime income withdrawals, payments are guaranteed for life and will not decrease unless you withdraw more than the lifetime income withdrawal amount from your annuity.⁵
